A
Genome-wide change concordance
Spearman ρ = −0.070
GSE151319 adipocyte − hMSC Δz
GSE160394 adipocyte − hMSC Δz
B
Cross-dataset switch replication
1-Mb regions
361
107
55
Primary switches with coverage
Also switch in external data
Same switch direction
C
Regional overlap test
Empirical P = 0.178
Observed = 111
Null mean = 96.7
Permutations
Overlapping external selected bins
